In this relic of the future past, your
academic destiny shall be marked.

dice, and it shall open on the card that
reads your fate, but watch yourself cuz
it gave me work to make it.

At the end of the day, this book is only
usefull to reveal the inevitable future that

The Dumbass

- 0 -

A card that signs oppression, adiction to cheap coffe, obsession over free time, powerlessness and mental limitations due to missing sleep.

The Dumbass went into college thinking he would be smarter, but all he is doing is shortcircuiting their last braincells.

The Ascended

- I -

A card that signs true willpower;

The desire to be better;

The resourcefull ways of an
experienced person;

Their skill and ability;

**The concentration needed
to be them.**

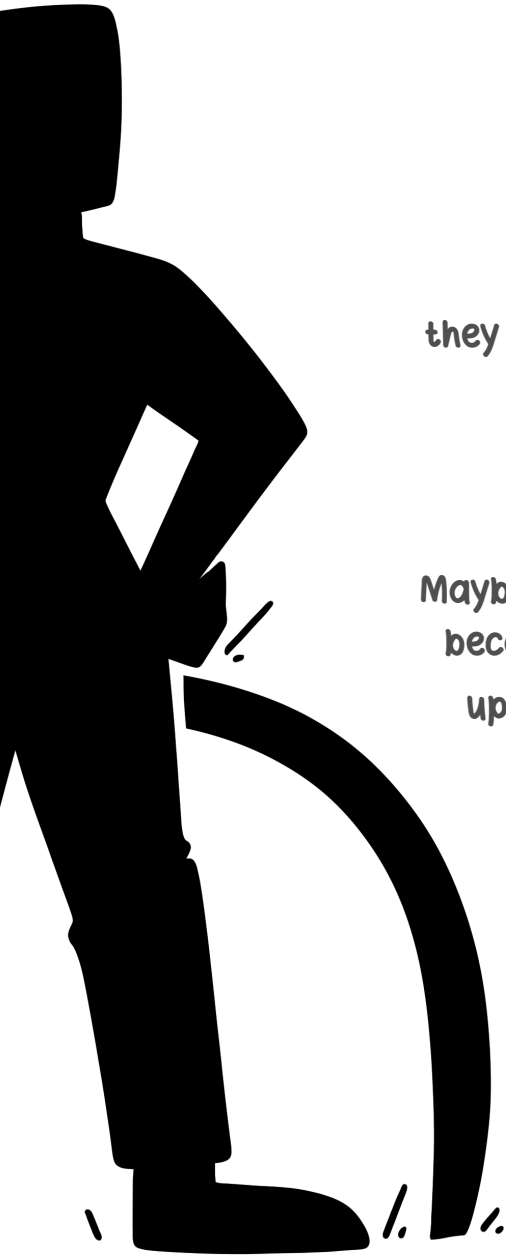

The Ascended might

but

they are barely passing by...

Maybe they appear into class
because they have to make
up for some lowergrades.

The Ghost

- II -

A card that signs the mystery of their ways, their intuition on any exercise and test they need to do, their inner voice that guides them out of the class and the higher power of guessing when to appear in class.

The Ghost is almost the opposite of the Ascended, seeming dumb and careless, but at the end of the day, he is the one with the best grades and the most free time.

The Sustenance

- III -

A card that signs a divine femininity, a nurturing
being blessed to us by technology,

A beauty to any hungry and poor student,

Full of an abundance of cancer inducing
foods and drinks.

The Sustenance is the birth of a new mother for a college student.

During the long nights doing works for
8 am the next day, it will still be there,
with open arms.

Like the bosom of a mother
to a baby.

A card that signs structure and control of a human being, a figure of almost some kind of authority over the rest of the class.

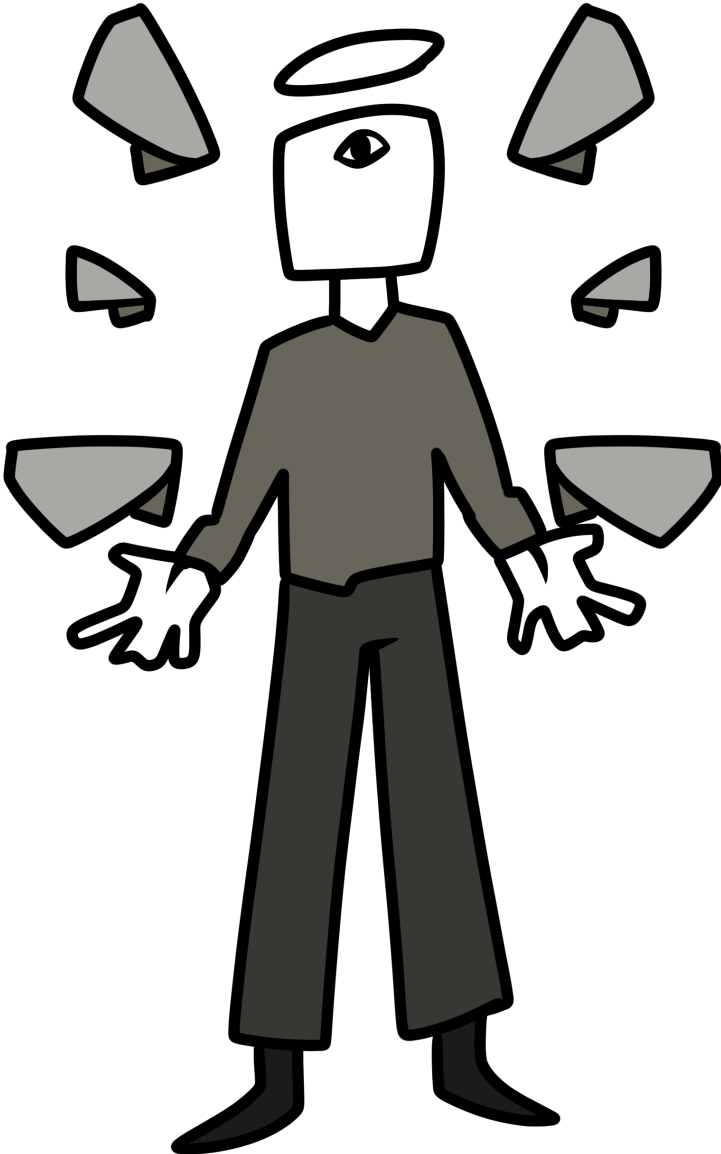

The EverPresent is simply a person that has nothing going on in their life, and uses class time to do anything he could do at home, without paying electricity or Wifi.

The EverPresent

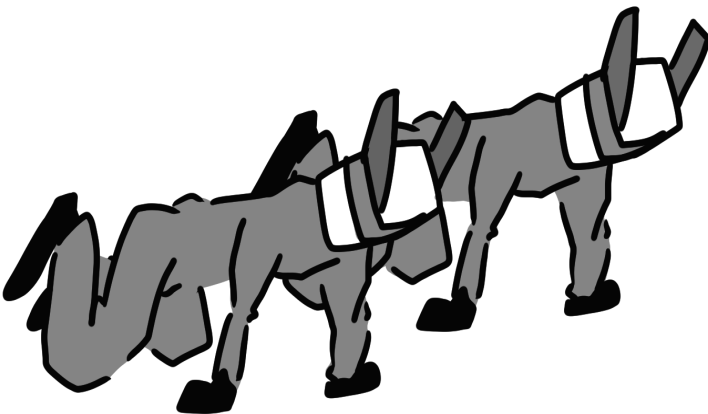

- IV -

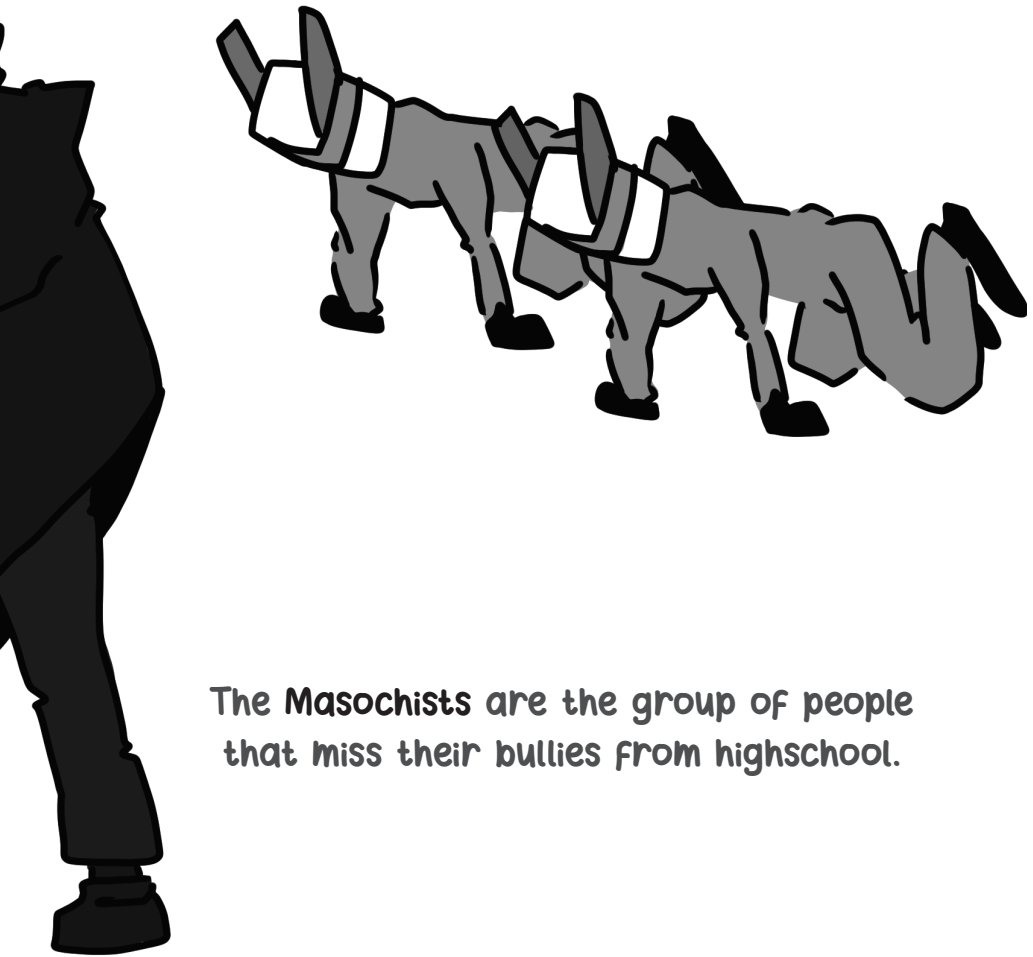

The Masochist

-V-

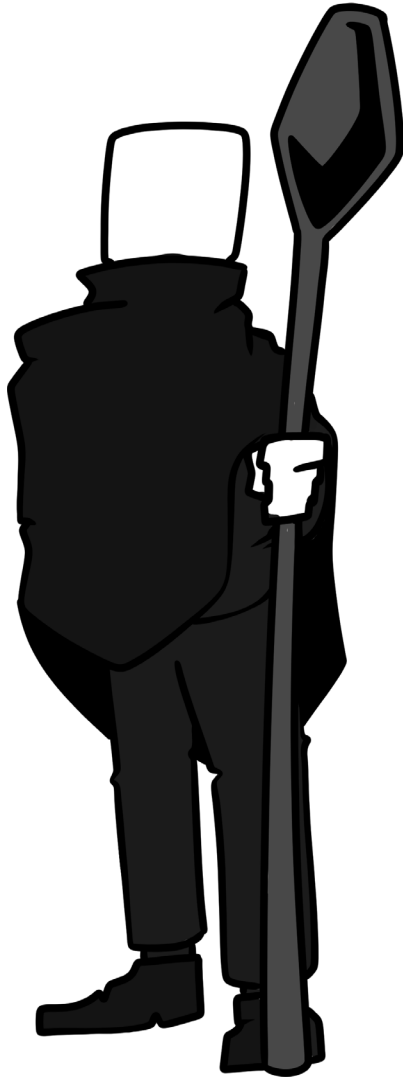

A card that signs the following of tradition and conformity to people younger than you, the challenging of morality and ethics.

The Masochists are the group of people that miss their bullies from highschool.

So they look for the old traditions that
remind them of the good old days.

The Union

- VI -

A card that signs an eternal partnership, a union between two people that will forever work together on each project, even if it's individual.

The Union is the singular entity
comprised of two people that
lost all individual function...

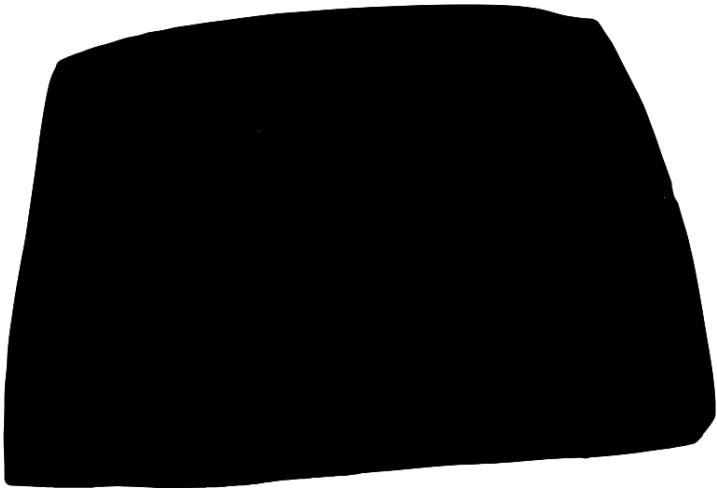

...

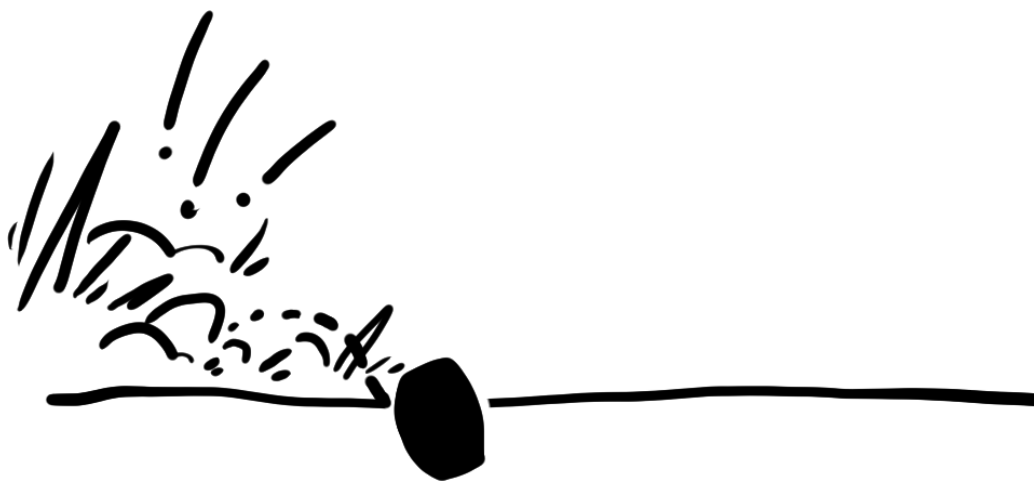

Now needing their partner
in crime to function.

The Chariot License
- VII -

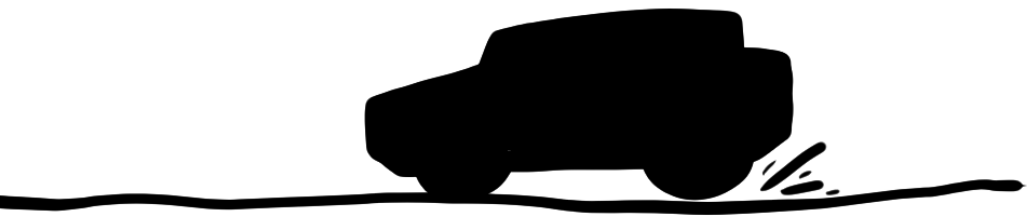

A card that signs control of the direction you are going, and the willpower to pass through the bullcrap experience that is driving school.

The Chariot License is the waste of time
that promises to pay off in the future,
but that probably won't.

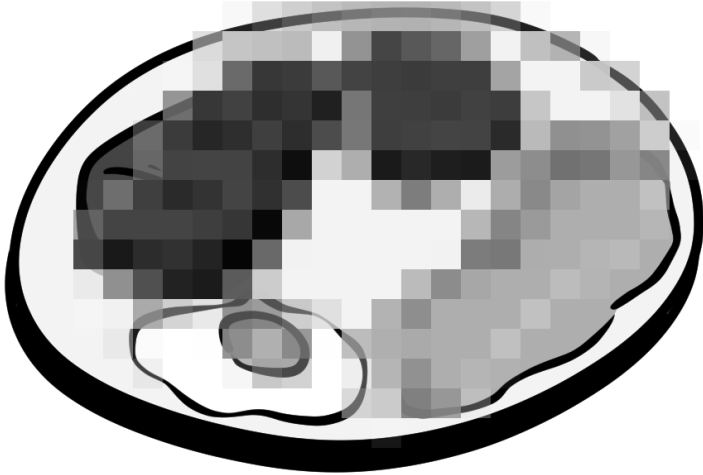

A card that signs focus, inner strength
bravery and some kind of focus on
anything else but what your are eating.

The Food

-VIII -

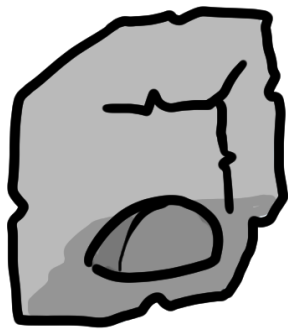

The Food is the warning for the coming
monstrosity that is Canteen food.

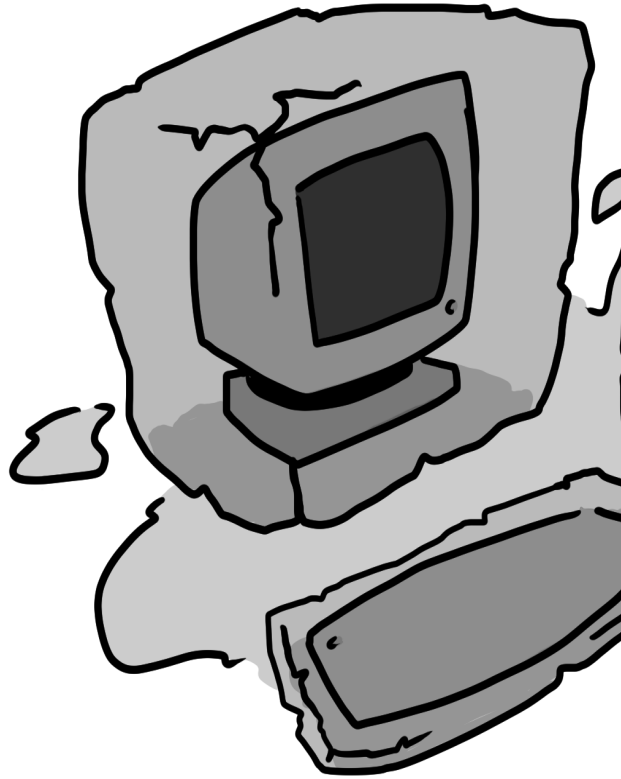

The Iceberg

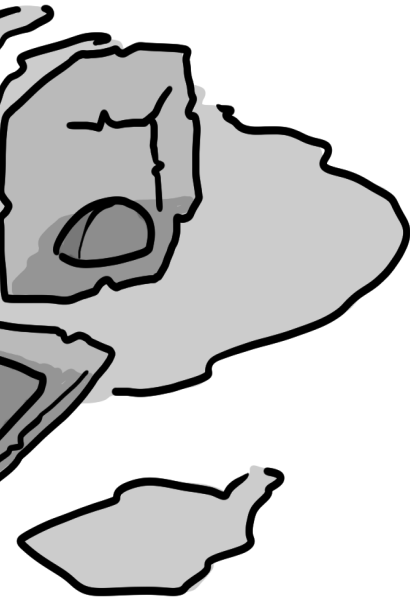

- IX -

A card that signs contemplation over
dumb choices, a search for the truth
of life and an inner guidance
to exit the building.

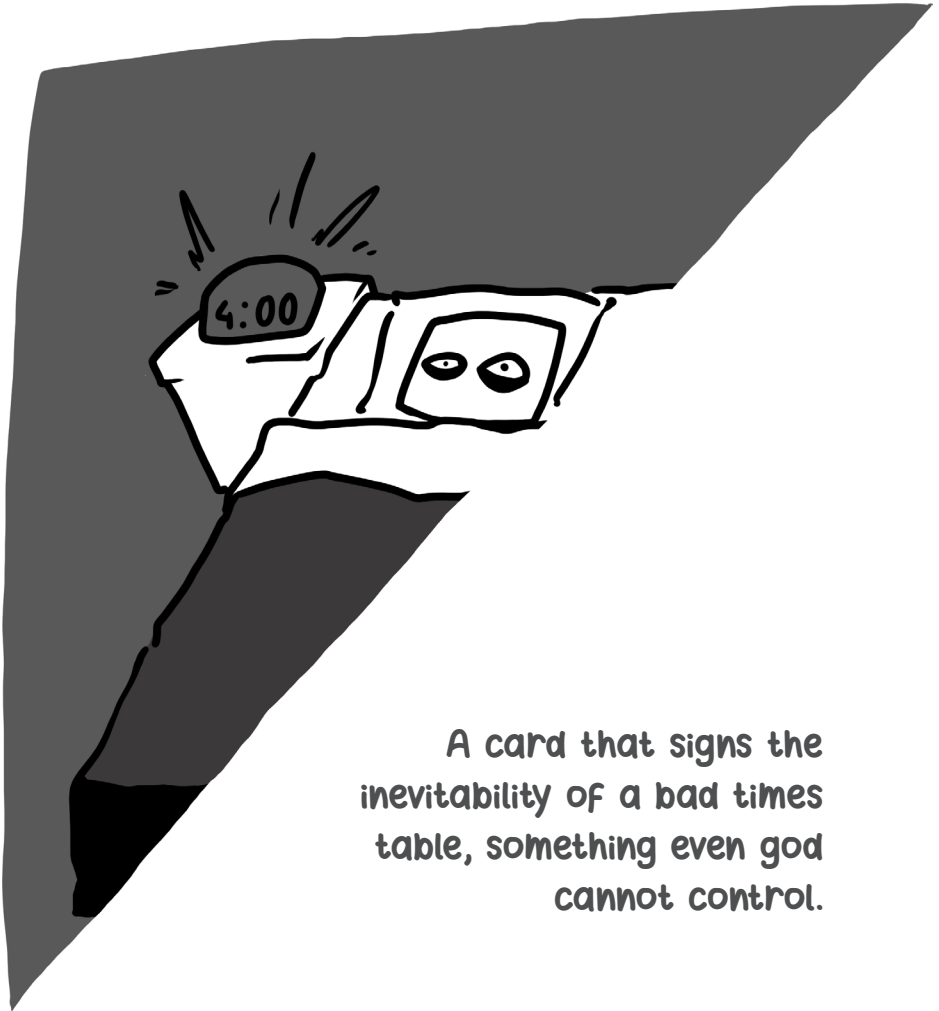

The Iceberg is the second smartest person that can come out of college, since they realized they were wasting time there, and stoped wasting money.

Now they just need to drop out.

The Gamble

- X -

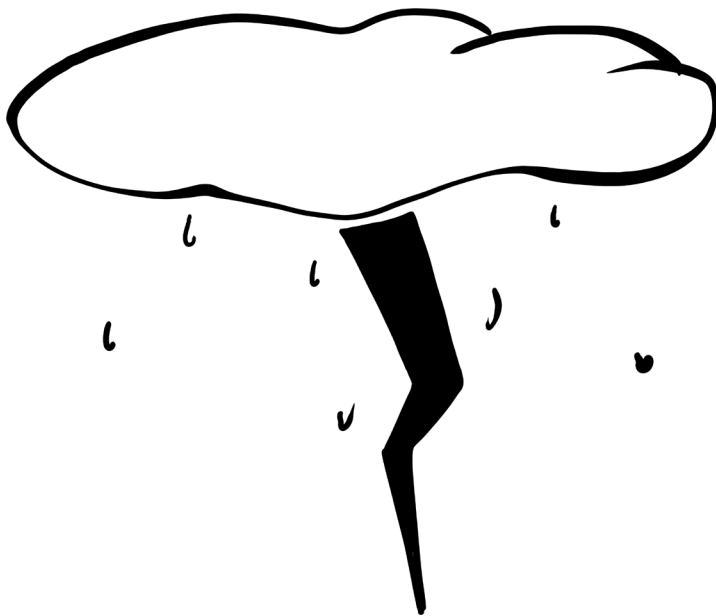

A card that signs the inevitability of a bad times table, something even god cannot control.

A card that signs the inevitability of a bad timetable, something even God cannot control.

It isn't neither good or bad, it's a cycle many pass by and many dont come back from.

It's the sign of change.

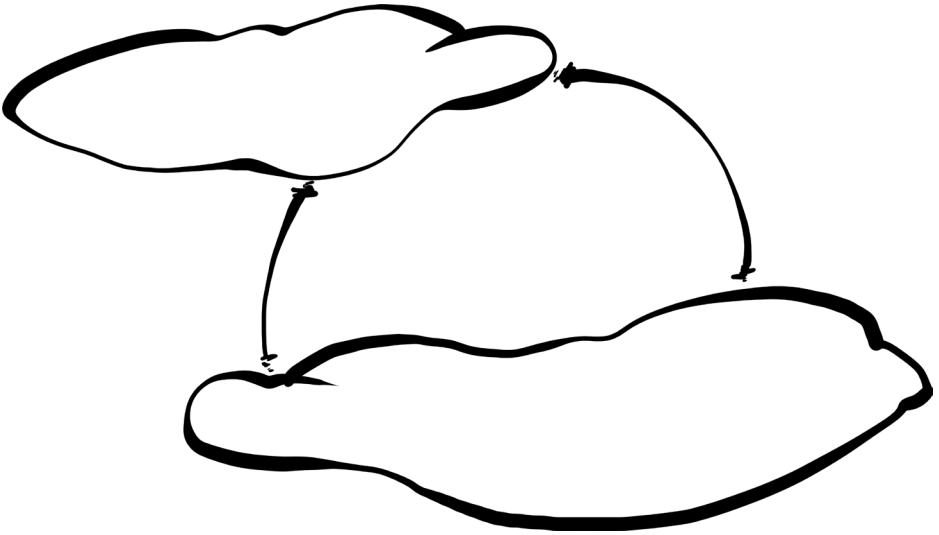

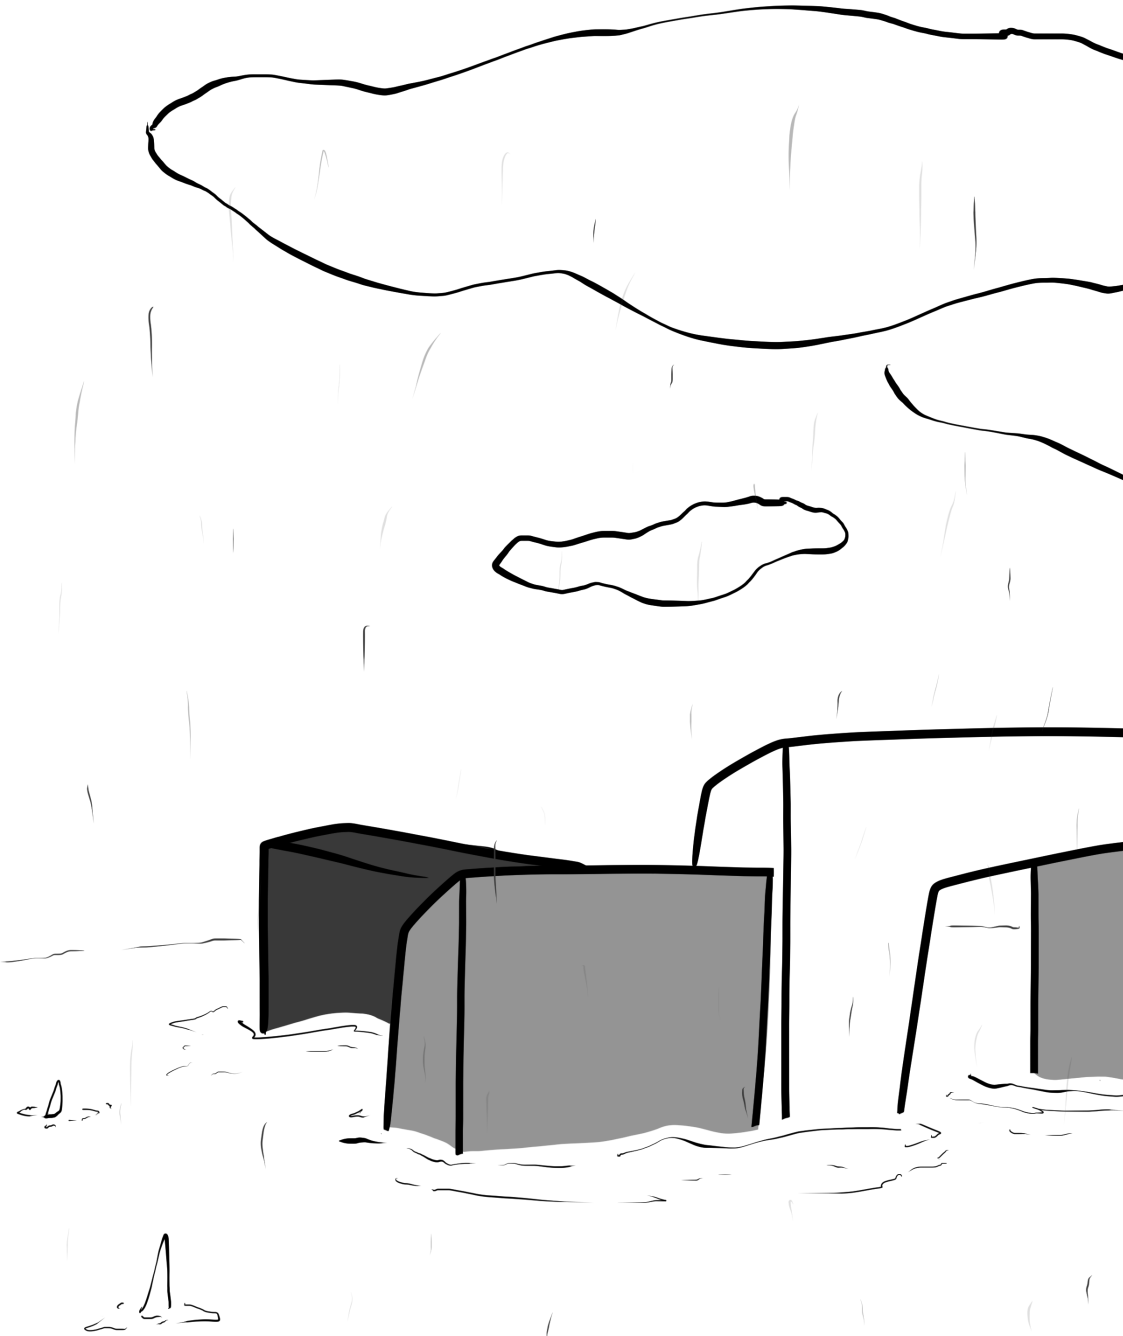

A card that signs the truth about the weather, it's cause and effect way of behaving, revealing it with pure clarity.

The Weather

- XI -

The Weather reveals that the more inconvenient it is, the worse the weather will become, the cause of it being your possible suffering.

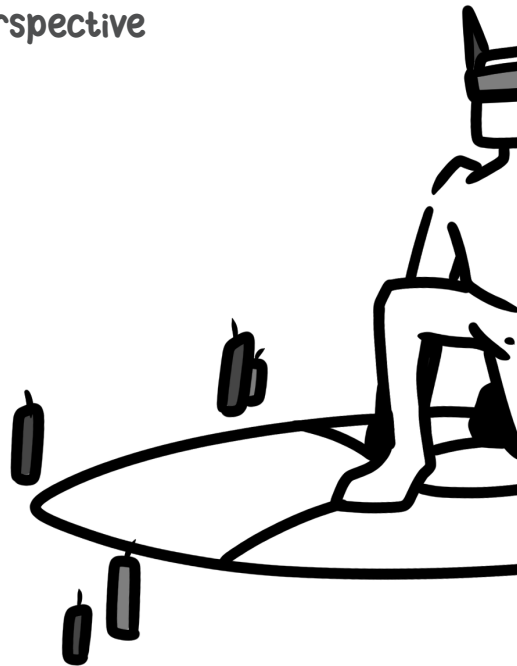

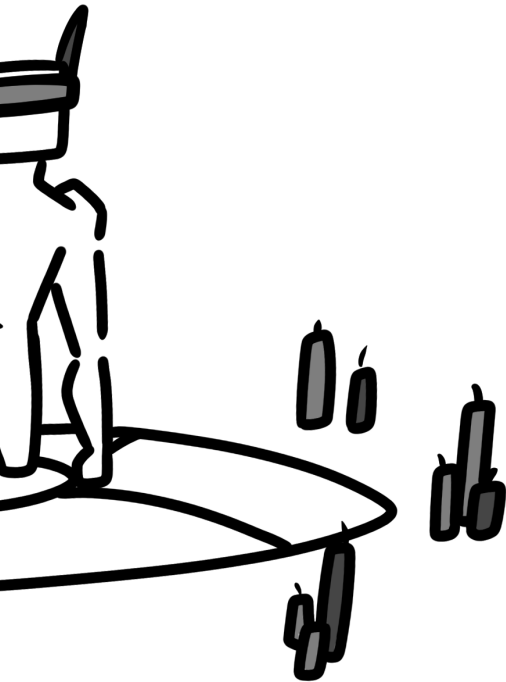

The Sacrifice

- XII -

A card that signs the one who is sacrificed,
Someone who is uncertain if he will come to
class or not, someone with lack of
direction in college, but who gives
everyone else some perspective
and contemplation on
why go to class.

The Sacrifice is simply a lower form of the
Masochist, a group of people that just
entered college and have
no power over anyone.

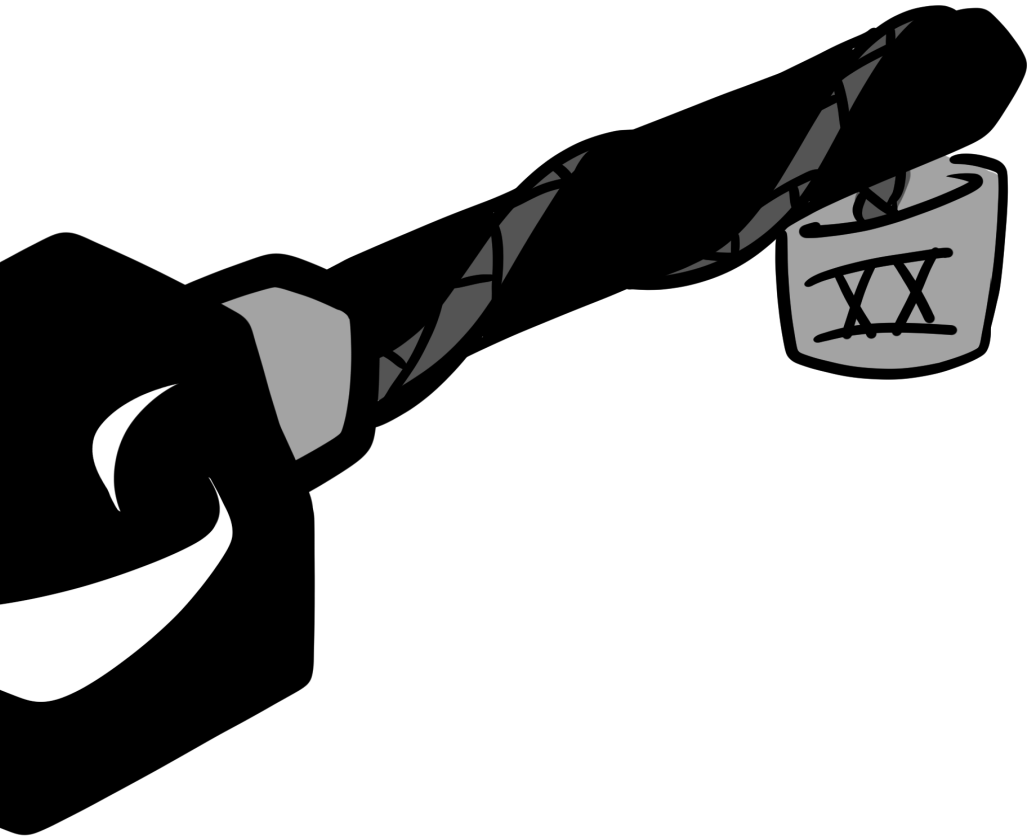

The Examination

- XIII -

A card that signs the end of the current cycle,
possible new beginnings and a change/metamorphosis
of the self, for worse.

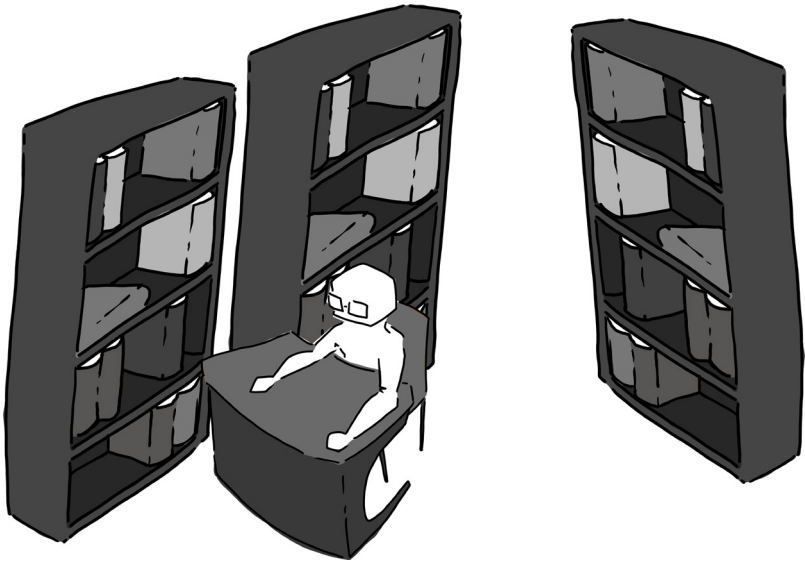

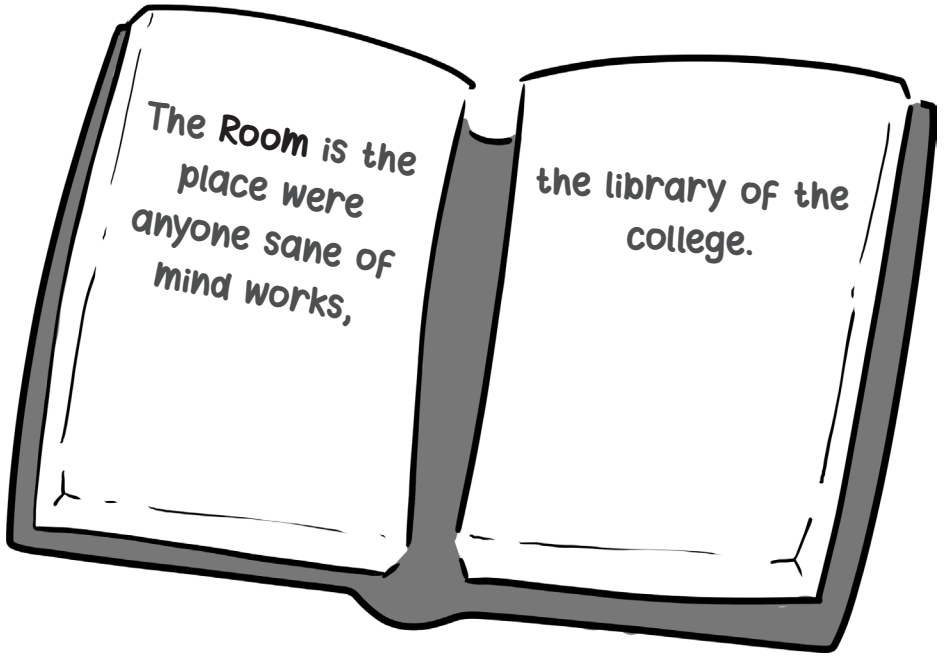

The Examination is the ultimate end to your semester, revealing nothing you did in certain classes was worth it, since you could be held back due to doing bad on the exams.

The Room - XIV -

A card that signs the most peaceful,
calm, tranquil and harmonized place in
college, a room where silence and
moderation is reached, where
everyone can finish their
work in peace.

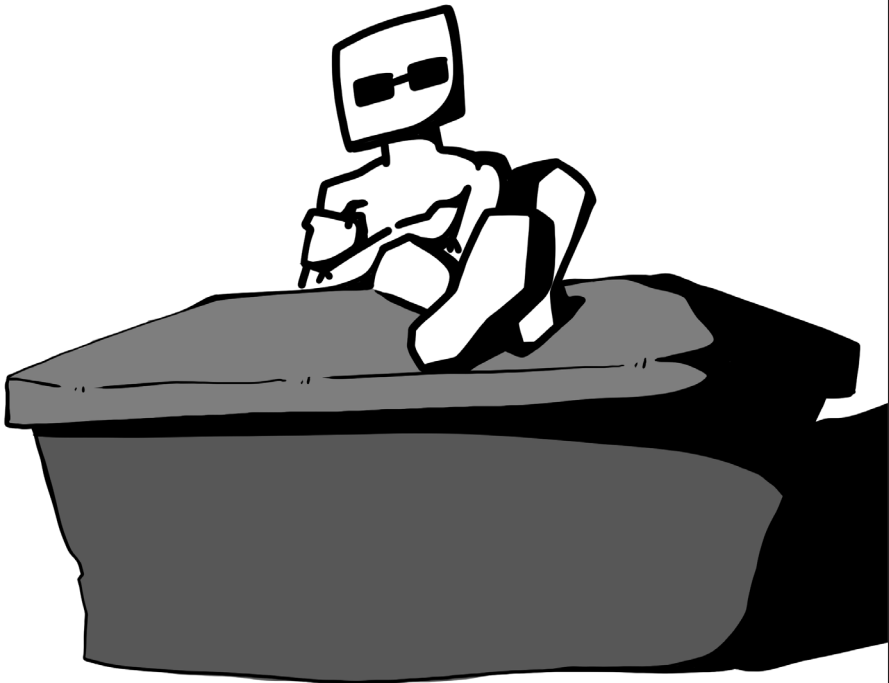

The Room is the
place were
anyone sane of
mind works,

the library of the
college.

The Evil

- XV -

A card that signs oppression, addiction
to work and obsession to do it off class.
The excess of it and the
powerlessness over it.

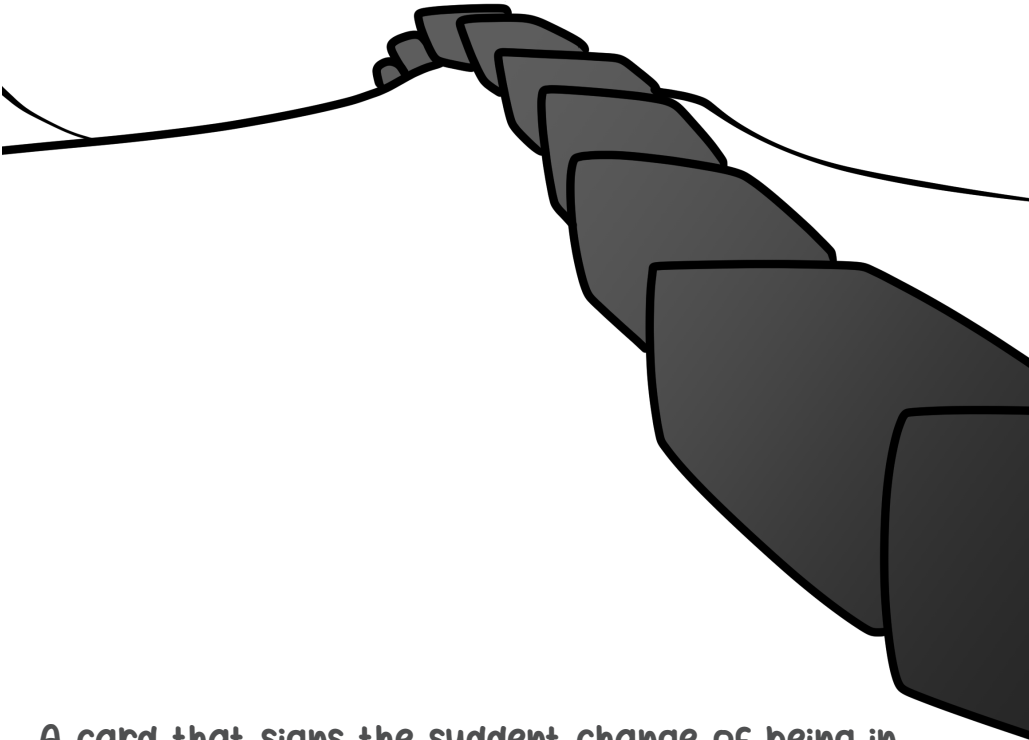

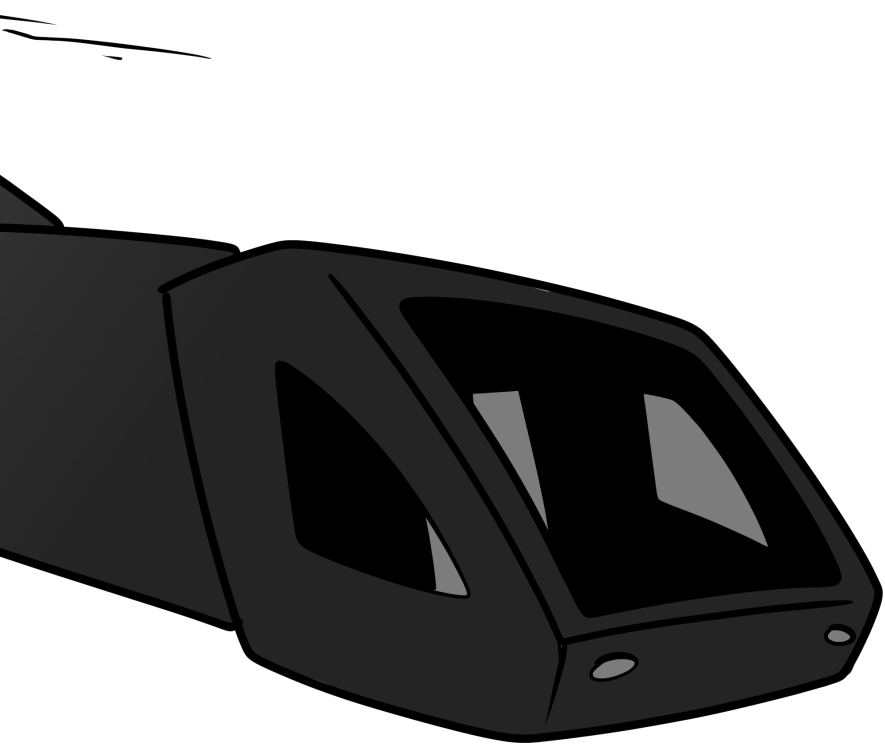

The Evil is all
teatchers, with their
dark intent of making
you work.

The Transport

- XVI -

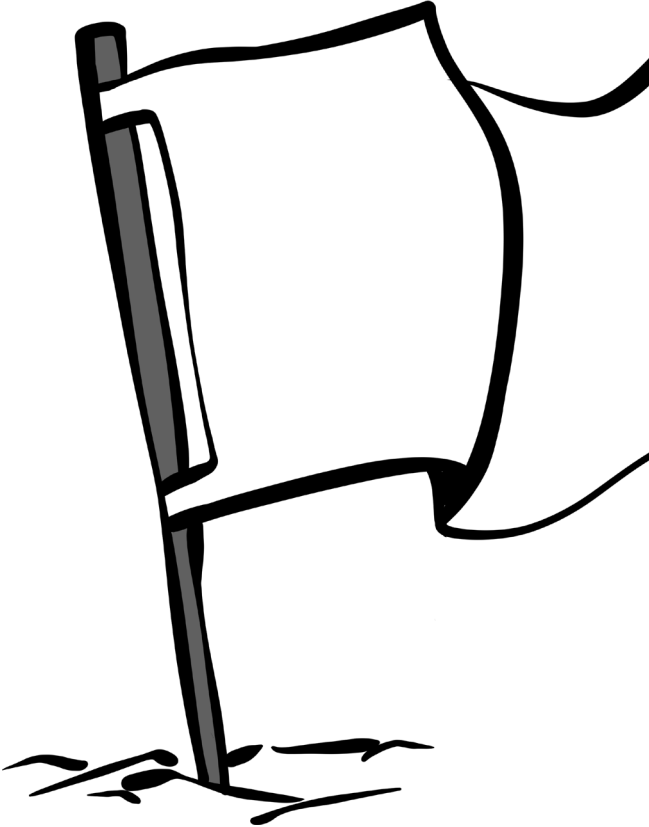

A card that signs the sudden change of being in one place and then in another, but also the upheaval of your day, with the possible breaking down of whichever is your chosen way of travel, mainly the metro.

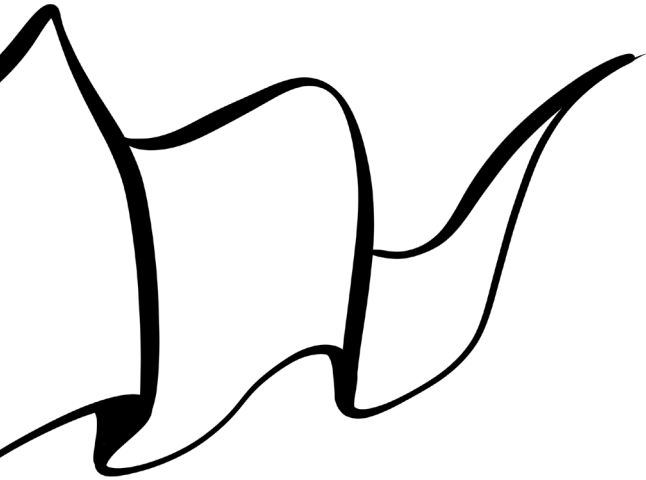

The Transport is something almost everyone relies on, and yet lets a lot of people down every day.

A card that signs a boost in inspiration, hope and positivity, the vision of faith and the healing and rejuvenation of the self.

The Letting

- XVII -

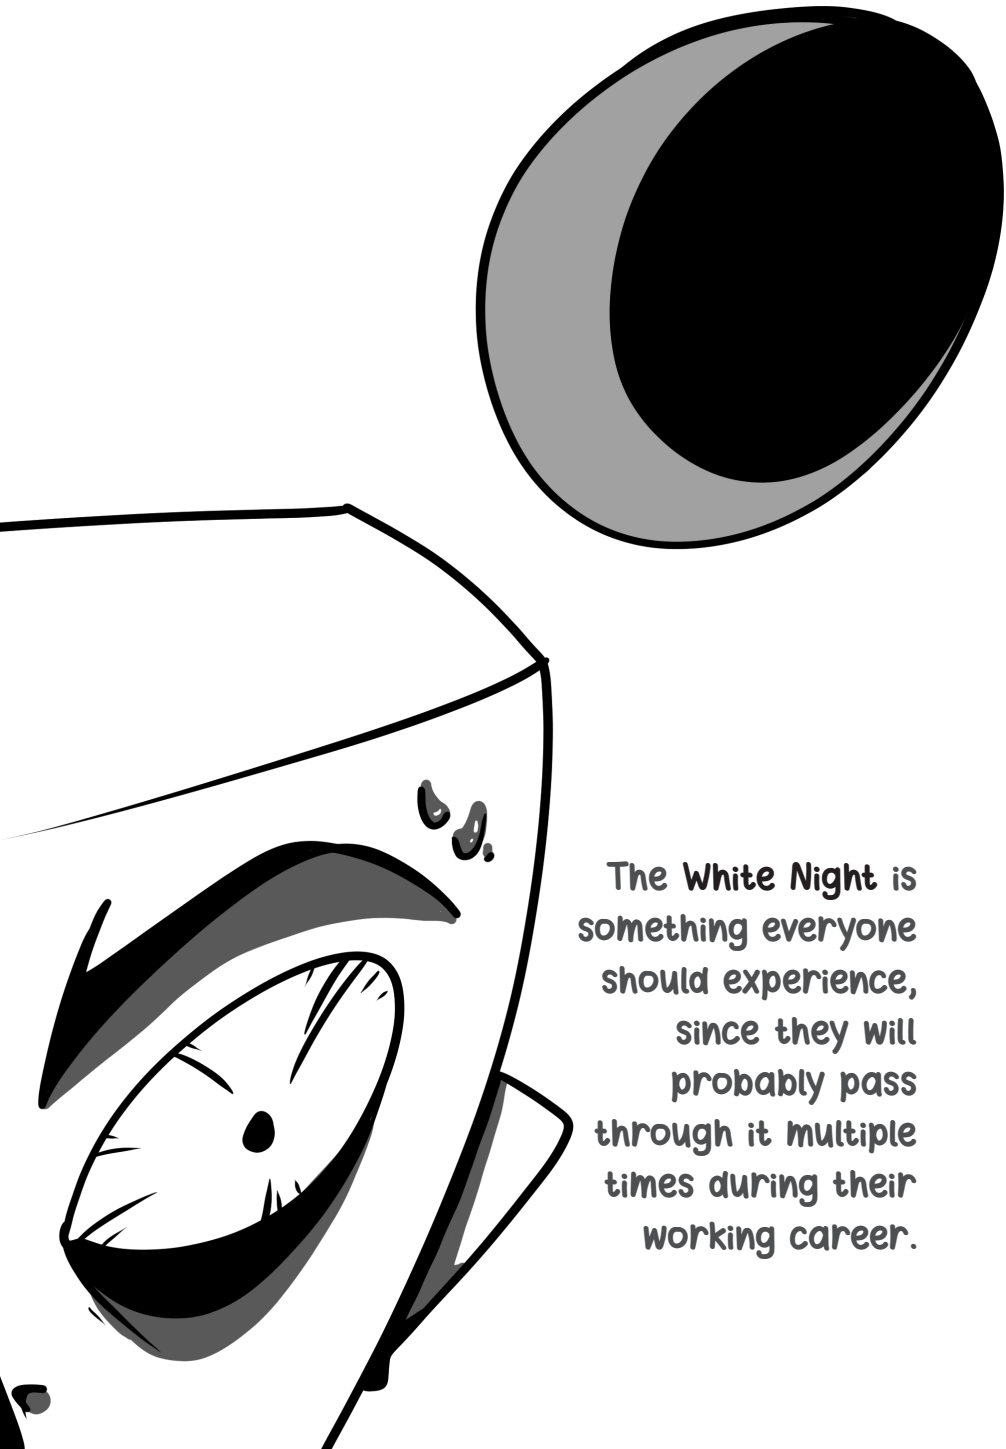

The letting is something all the college students wish to do, but only a couple are capable of doing,

leaving the course.

The White Night - XVIII -

A card that signs the unconscious and illusions that will come during a long night work, and the intuition one must have to know how much coffee/energy drinks they should consume.

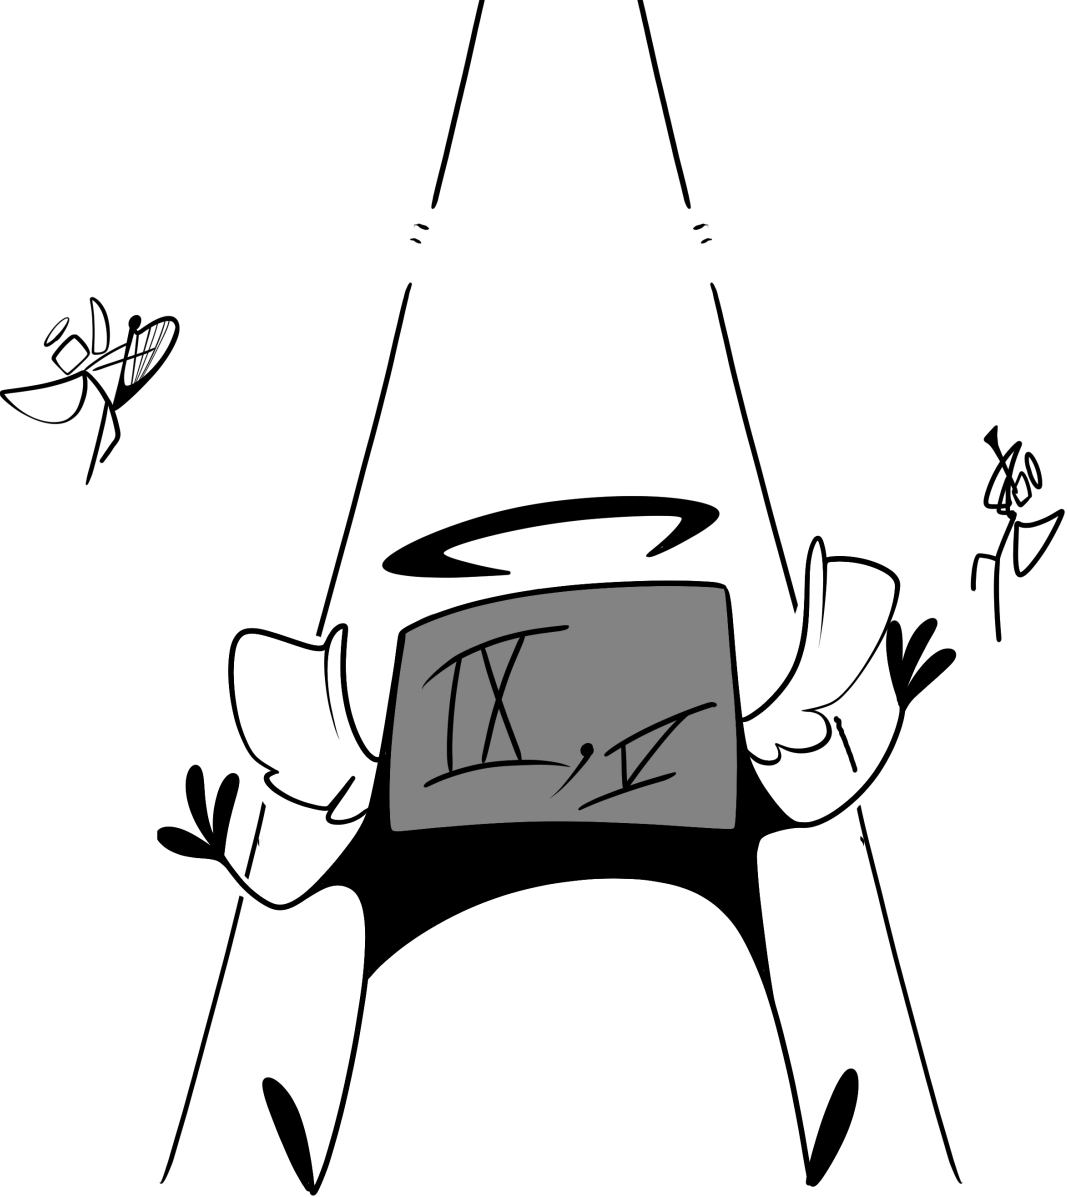

The White Night is something everyone should experience, since they will probably pass through it multiple times during their working career.

The Passing Grade

- XIX -

A card that signs success (kinda), the joy and celebration of a positive grade.

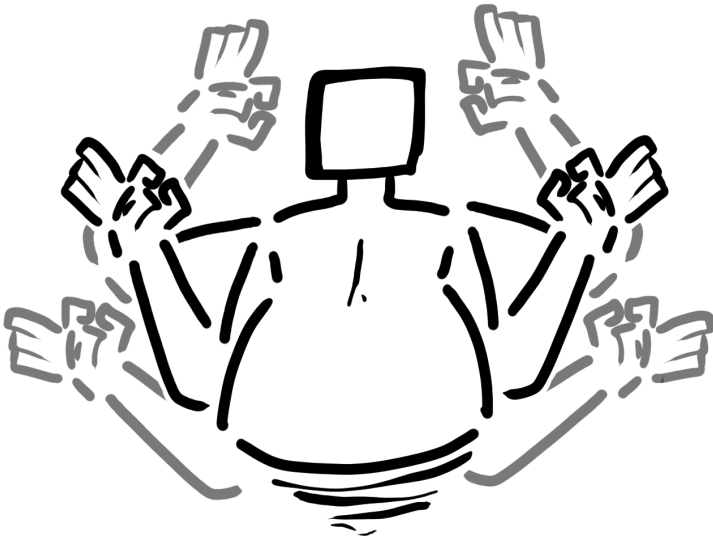

The Passing Grade is something every student wishes to have in every class, although many are incapable.

The Regret

- XIX -

A card that signs a useless self
evaluation, an alarm to fall back asleep,
the renewal of purpose of
people that don't know what to do,
the reflection of the self into the
reckoning of the next year.

The Regret is the second dumbest
decision a person can make, ...

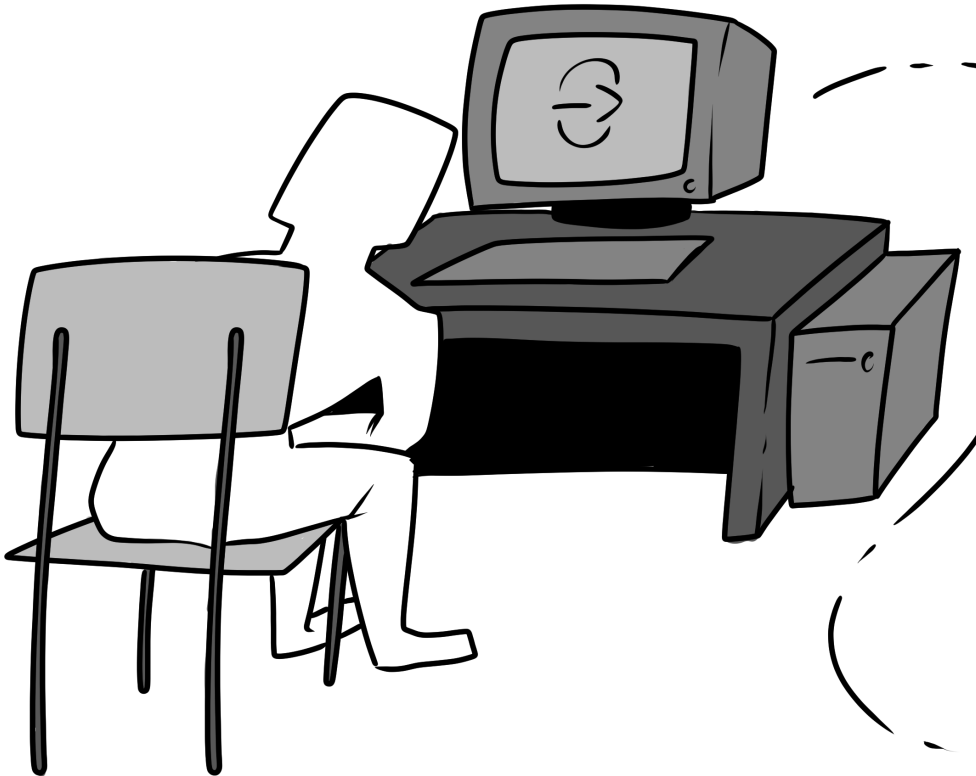

after entering college.

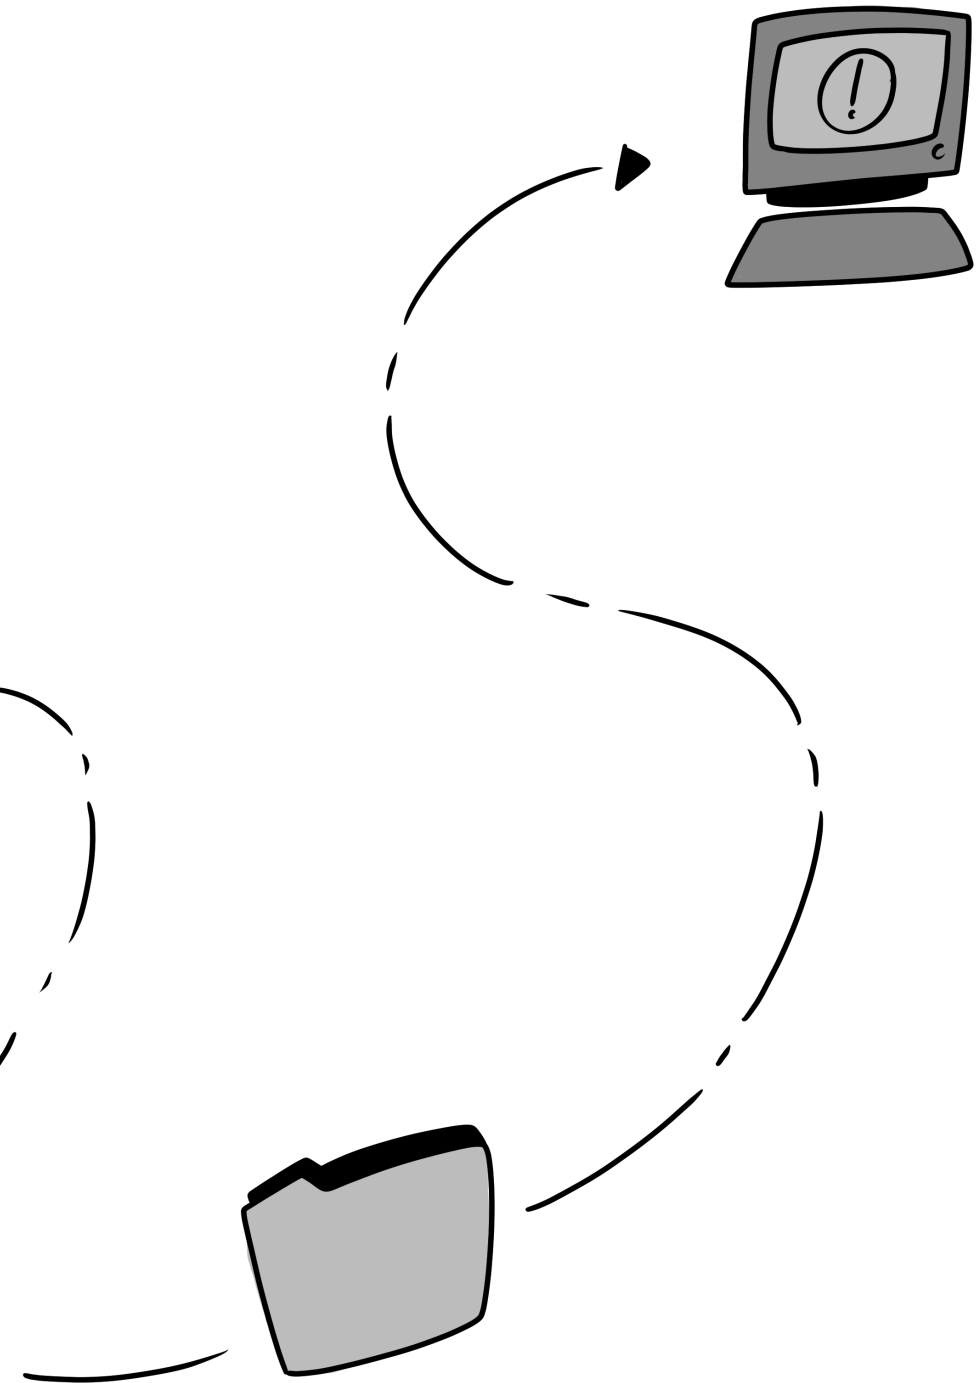

The Completist

- XIX -

A card that signs fulfilment and the slight sense of belonging in college (until you get the grade back), a wholeness and completion only achivable by 100% a videogame.

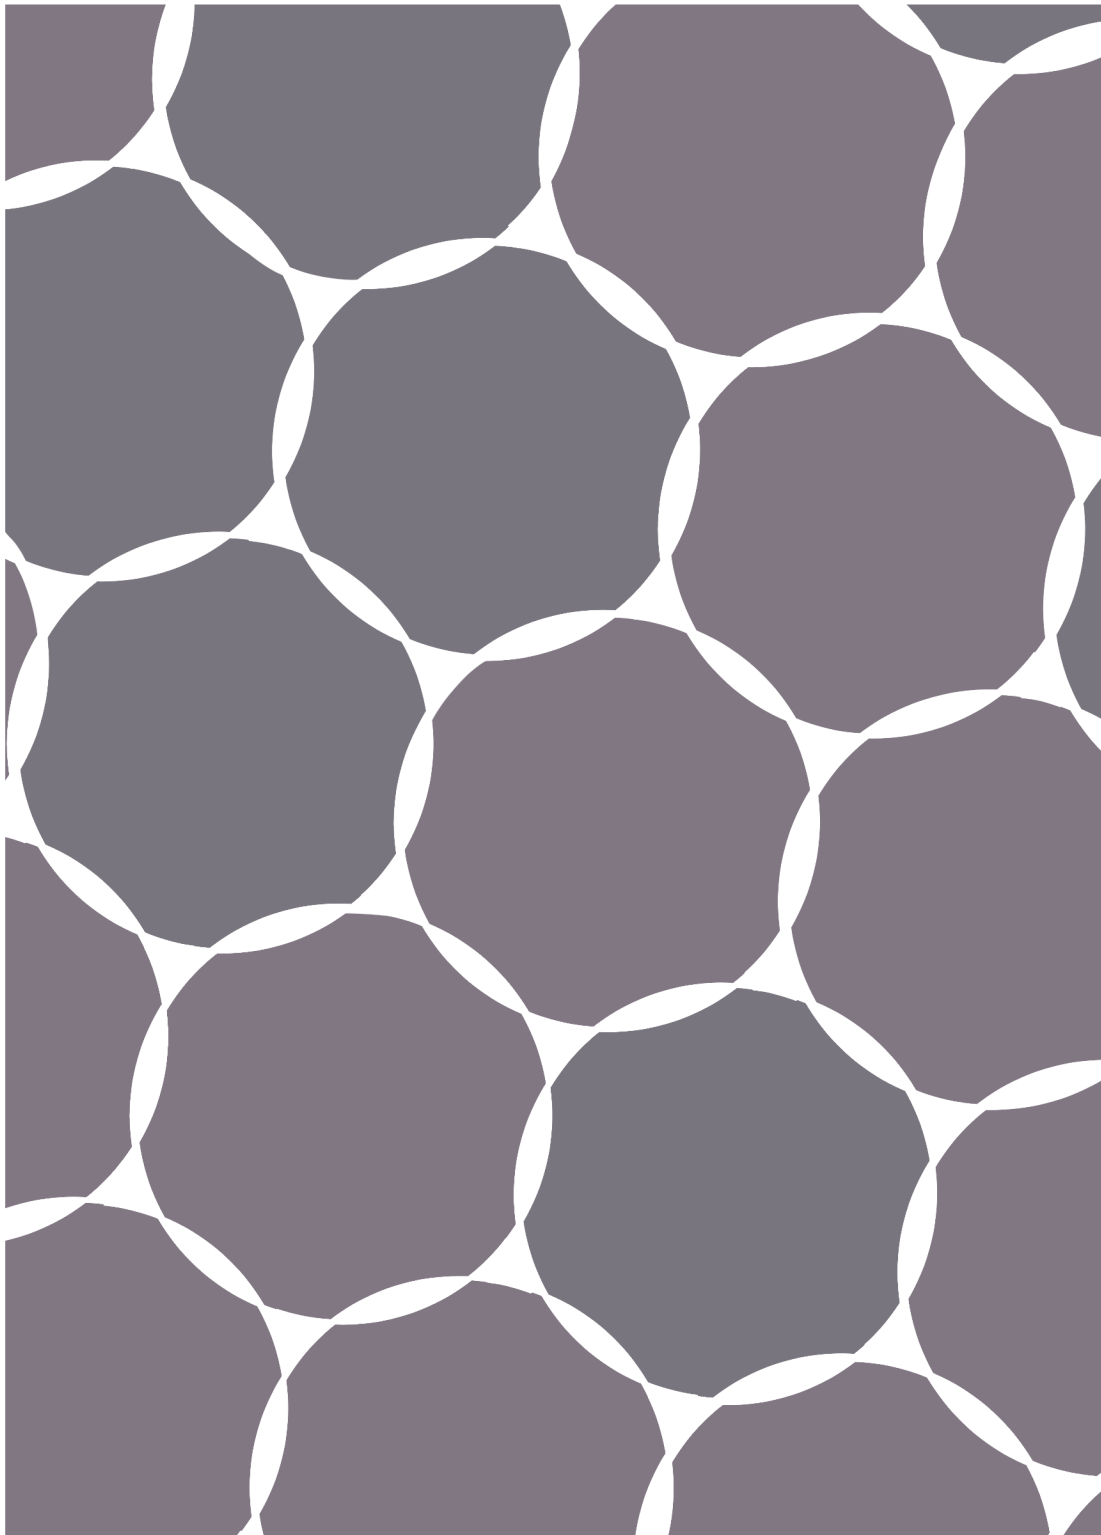

The Completist is the unique achievement of handing in your work, and the relief that it is over, however its a very uncomon feeling, and very short. will probably pass thru it multiple time during your working career.

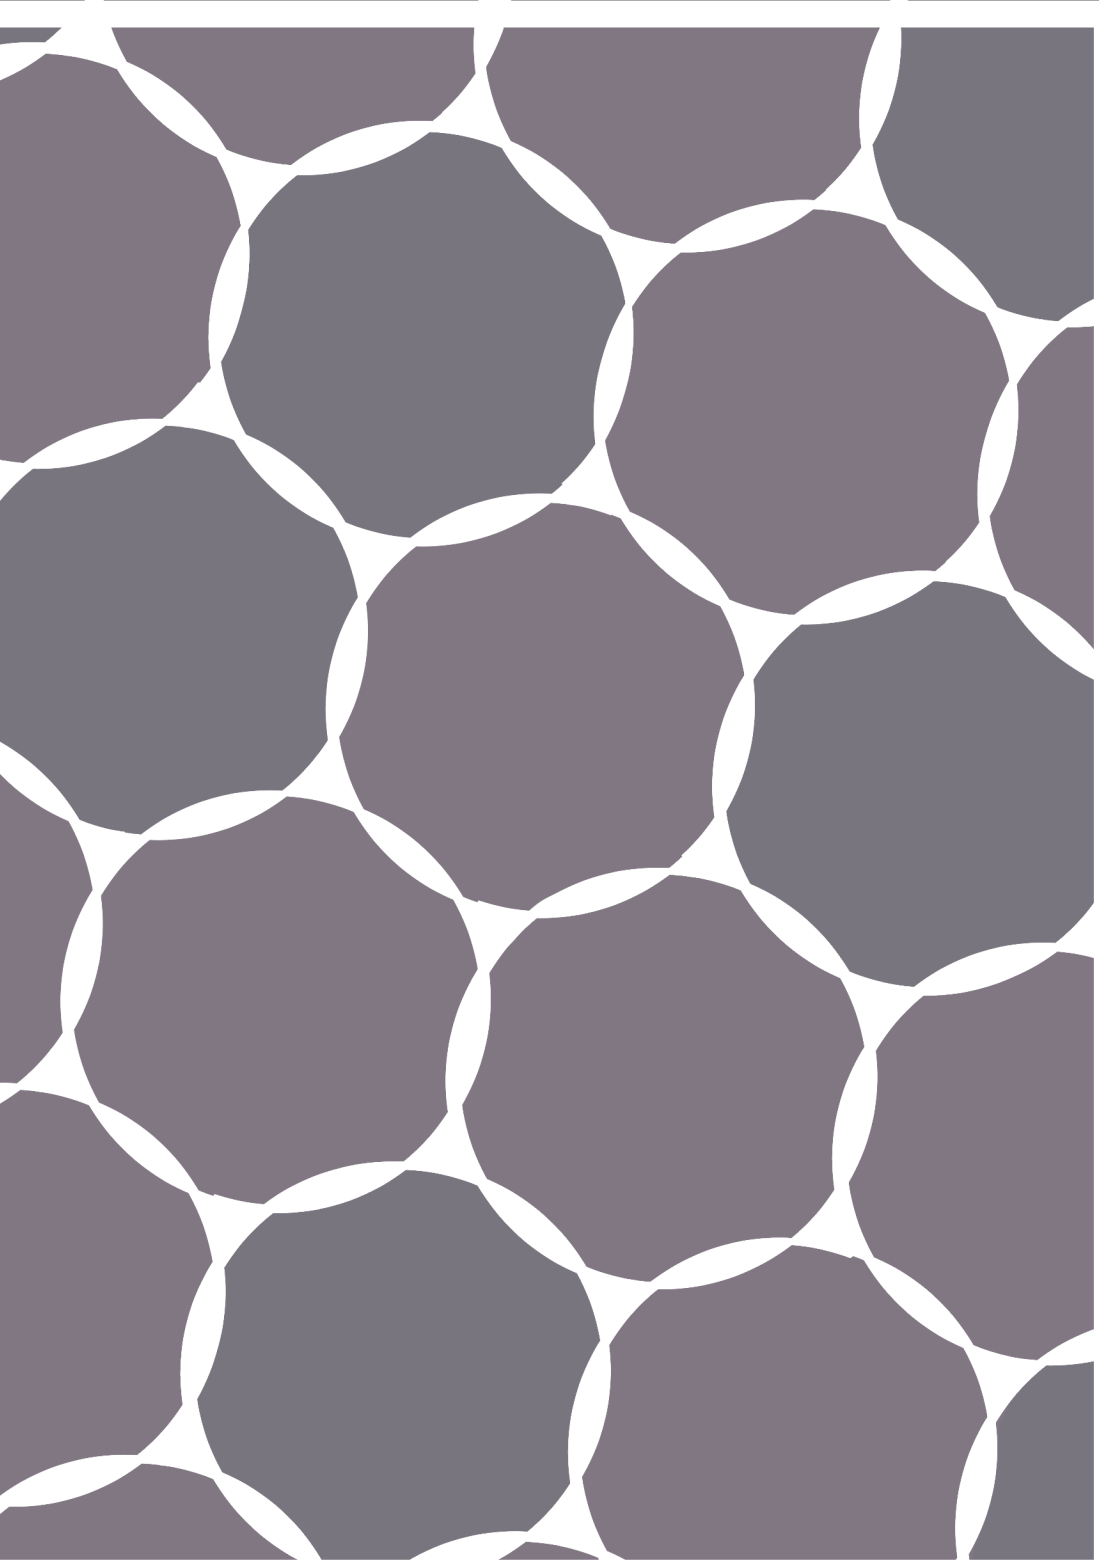

**P.P.S.: Everything in this book might or
might not be wrong, I dont know I didn't
make it...**

No wait... I did.

It's gonna be fine...

Unless you got a bad future, then it's not.
